

Chapter 7 Facilities Standards

Facilities Standards

Introduction to Facilities Standards

It is the position of the school district to provide classrooms and other facilities in which students with disabilities receive instruction, related services, and supplementary aids in rooms essentially equivalent to the regular education program in order to provide an atmosphere that is conducive to learning as well as meet the student's special physical, sensory, and emotional needs.

All necessary special equipment and instructional materials will be provided for proper instruction, related services, and supplementary aids and services in accordance with Minnesota rules.

Documentation

- Equipment Inventories (filed with Business Personnel in each district)
- [List of Buildings and Locations](#)
- **Photographs of Classrooms**
